Personal Activity Monitor

RICKY SIDHU

KAMRON JAVAHERPOUR

Barnes' Comp 585

RUNNING THE APPLICATION

Extract the entire directory titled "Personal Activity Monitor". Upon doing so, running the jar is sufficient for reviewing the functionality of the application. Otherwise, the source code may be imported into NetBeans, assuming the data folder is in the root directory of the project.

DOCUMENTATION

Documentation is available in the doc folder, in two forms, as well as some screenshots in the screenshot folder. In the doc folder you will find an IDE-generated javadoc and diagrams as specified in the spec for this project.
